CONNECTED
INTELLIGENCE
LAYER

— ONE INTELLIGENCE LAYER, THREE POWERFUL ROLES

Meet customers where the relationship happens.

Neural Rails connects the public website, authenticated digital banking, and the employee experience with intelligence built for your institution.

01

Website Concierge

Answers from approved public information, guides product discovery, supports applications, and hands conversations to staff with context.

SUPPORT • SALES • 24/7 GUIDANCE

02

Digital Relationship Manager

Uses authorized account context, transaction activity, campaign rules, and conversational memory to deliver timely, permission-based guidance.

PERSONALIZATION • PROACTIVE OUTREACH • GROWTH

03

Employee Knowledge Assistant

Turns policies, procedures, product information, and trusted regulatory resources into clear answers employees can use immediately.

FASTER ANSWERS • CONSISTENT SERVICE • LESS SEARCHING

BETTER CONVERSATIONS CREATE BETTER OUTCOMES

**Grow loans
and deposits**

**Reduce digital
abandonment**

**Resolve routine
service questions**

**Give employees
faster answers**

Give every customer your best conversation.
